00:39:10 Bill Hastings: Disinfecting public computers. How? After each use?

00:39:39 glenna wisniewski: that is the plan at LV

00:41:42 miranda mcdermott bc: hi anyone have a link to the sunday article about ocpl curbside pickup? thanks

00:41:57 Rebecca Kluberanz:  
<https://www.nytimes.com/2020/05/11/opinion/coronavirus-reopen.html>

00:42:05 Rebecca Kluberanz: That's the 10-4 schedule

00:42:42 Marc - CLRC: Thanks Rebecca!

00:45:27 Michelle: some libraries at Mid York will start curbside next week instead of being in the building for two weeks first

00:48:18 Michelle: yes Earlville and us, in Morrisville

00:48:53 Michelle: April, it's Michelle from Morrisville, not Oneida :-)

00:52:30 Val Massulik: The health dept will determine how many people may have been exposed and will decide if we just need notify staff, or the public at large

00:55:24 Val Massulik: My mic doesn't work today but the idea behind the temp taking is that it is part of a layered approach. It's not one catch all.

00:59:15 Missy Baron: There has been a ultra violet light device advertised on HSN or QVC over the weekend.

01:00:11 Susan Hansen: North Med had no temp check but a light, I believe not temp. taken

01:00:43 Marc - CLRC: computer cleaning

01:01:13 Terry Morris: sorry im late

01:01:28 Rena Brower: Maxwell bought a test 3-pack of these keyboard covers. They are basically shower caps. They fit standard keyboards, but not laptops.

01:07:46 glenna wisniewski: just as an FYI—the state of California very clearly includes Libraries in Retail and devoted 2 pages to libraries in their guidelines

01:07:48 glenna wisniewski: <https://covid19.ca.gov/pdf/guidance-retail.pdf>

01:11:51 Val Massulik: Libraries have had to reimagine themselves several times over the years. It's time to do it again. Time to reimagine what we can do / how we do it.

01:13:07 Maria: I think presenting mask requirements as your civic duty to protect your fellow American might be helpful rather than a "forced mandate"
